REASONS FOR ALLOWANCE

5. The following is an examiner's statement of reasons for allowance:

The prior art of record does not render obvious to one ordinarily skilled in the art at the time of applicant's invention nor anticipate the combination of claimed elements including 'connecting the primary computer system and the secondary computer system to provide communication capability between the primary computer system and the secondary computer system; determining new identity information exists on the primary computer system and that a synchronization operation should be performed; converting the new identity information into a different format, the different format associated with the secondary computer system; and propagating the converted information to the secondary computer system' as recited in independent claim 1 and similarly recited in independent claims 15, 22, 29, and 38.

The remaining claims 2-14, 16-21, 23-28, 30-37, and 39 comprise dependent claims, thus these claims are patently distinct over the art of record for at least the above reasons.

The examiner agrees with the applicants' remarks, filed on February 16, 2005, page 9 lines 18-29; page 10 lines 2-32; page 11 lines 2-32; page 12 lines 2-18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
